

# Training Development Manager

## Introduction to Mid Kent Mind

Mid Kent Mind is one of around 115 local Mind associations which are affiliated to the National charity Mind. We are an independent charitable organisation and support the overall values and vision of the national organisation. We have regular audits to ensure the highest quality standards, and in 2023 were awarded the Mind Quality Mark, which means we work to the highest standards set out by National Mind.

We are committed to excellence and deliver high quality, responsive and inclusive services and training. We enable people to manage their mental health and to maintain their own wellbeing. We raise awareness and reduce the discrimination and stigma that many people with mental health problems face. We strive to create a more positive image of mental health that acknowledges its importance in shaping our identities.

We can't do any of this without our partners, funders, clients, and of course staff. We look for talented, motivated people to join our team and share in the reward of delivering on our strategic ambitions, knowing that we are making a positive difference to lives and communities.

## **Data protection and privacy**

When you apply to work with us we will collect data about your identity. The lawful basis on which we process this data is 'legal obligation'. We must have this data to verify your eligibility to work in the UK.

When applying you may provide additional data to support your application. The lawful basis on which we process this data is 'contract'. This means that we are processing data to determine if we can enter into an employment contract with you.

You may want us to know about your personal experiences around mental health. This kind of sensitive information is called 'special category' data, and if you want us to record this information we will need your explicit permission as the lawful basis.

Because our work involves contact with vulnerable adults, if your application is successful we will apply for an Enhanced DBS check. This means we process data 'related to' criminal offences, and applies even when the data is about the absence of criminal offences. The lawful basis for processing is 'safeguarding of children and of individuals at risk'. We will ask to see your DBS certificate and decide if it is satisfactory – the presence of criminal offence data is not an automatic bar. We do not make a copy of your DBS certificate.

See the [Privacy Notice](#) on our website for more information.

## **Probationary period**

There is a probationary employment period which is normally 6 months, however this can be extended to a maximum of 12 months.
